Liberty Baptist Brotherhood Meets Saturday Evening

Mr. J. C. Bailew, State Secretary for Royal Ambassador Work in Virginia, will be guest speaker, Saturday, September 7, at 7:30 P. M. All members of the Brotherhood and Royal Ambassadors will bring guests for this meeting. Any one interested in Boy's Work is urged to be our honored guest.

Mr. Ballew served as State Secretary for Boy's Work in Kentucky for eight years before coming to Virginia. He has had special courses in the field at Northwestern University in Illinois. He is the past President of American Camper's Association. He recently served as an Advisor and Leader at "The World Congress for Royal Ambassadors," at Fort Worth, Texas, where some six-thousand boys attended.

The Hazel Moon Circle of W.M.U. of Liberty Baptist Church will meet Monday, Sept. 8th, at 7:30 with Mrs. Charles Torrence. All members please be present.

LOCAL CHURCH HAS EMERGECY LIFE PACKS FOR SALE TO PUBLIC

"When Disaster Strikes, How Long Can You Stay Alive?" That is an important question, in the light of possible enemy attack, earthquakes, blizzards, epidemics, hurricanes, power failures, etc.

Pastor W. P. Lawrence, of the Appomattox Seventh-day Adventist Church, announces that his church now has locally for sale, an Emergency Life Pack, containing a health sustaining diet of food and water that will keep one alive for three full days. This Pack sells for $3.00, and is available by calling Mr. Lawrence at 4451.

The compact emergency package has two cans of emergency rations, fortified with high energy, high calorie, highly nutritious foods, plus four cans of Sterile water. Can opener and directions are enclosed.

The contents are government inspected and approved.

One of these tidy packs may be seen at The Times-Virginian office.

Japanses Student Speaks To M. Y. F. Sub-District

For the past week the Appomattox M. Y. F. Sub-District has been having an Activity Week. The first activity of this week was a reception on August 23rd, for Mr. Shoji Yamagawa, a Japanese student, who was the guest speaker for the week. Shoji is a student at Wilson College in Swannanoa, N. C. From the beginning, everyone liked Shoji and we were all amazed how well he could speak English. There was a simple explanation for this, though, for Shoji told us that everyone in Japan has to take English from the time they are fourteen until they are sixteen.

Sunday morning found Shoji with a busy schedule. At 10:00 o'clock he spoke at Trinity; 11:30 o'clock at Mt. Olivet; 7:15 P. M. at Pamplin and 8:15 P. M. at Memorial at Appomattox. He used as his topic, "Christianity and Myself."

Monday evening the group met at the Memorial Church in Appomattox for the first service. At 7:15 devotions were conducted by the host church. From 7:30 to 8:10, discussion groups were led by the four ministers, "The Church," by Rev. Aaron D. Smith; "Our Faith," by Rev. Bonald S. Clarke; "Life of Jesus," by Rev. Richard A. Bergdoli, and "Christian Discipleship," by Rev. Kyle Kelly. The group was divided into four classes and each night we rotated until we had heard all four discussions.

Each night at 8:10, Shoji talked to the group. He told us that in Japan about one person out of two hundred is a Christian. In Shoji's graduating class he was the only one who professed to be a Christian.

After Shoji's talk each night we had refreshments and entertainment. Shoji sang some songs in Japanese and also played some records of Japanese music.

The meeting was closed each night at 9:15 with the M. Y. F. Benediction.

This procedure was followed the rest of the week at the following churches: Tuesday, Bethlehem, Concord; Wednesday, Mt. Comfort, and Thursday, Evergreen.

Friday evening the Sub-District met at Holliday Lake on the 4-H side for the closing service. We had a picnic at 5:30 P. M., and a Gallery Service at 6:15. This was a very inspiring and beautiful service. The choir sang and Rev. Kayle Kelley preached from boats. The remainder of the group sat along the shore and listened. Shoji had to leave on Friday morning and was therefore unable to be with us for the closing service.

We were sorry to see Shoji go, because everyone had just gotten to know and like him. Japan can be proud of him and if the rest of the young people are like him, Japan has a very bright future.

CHIGGERS CAN CAUSE TROUBLE FOR TURKEYS

Chiggers can cause trouble for turkeys on the range.

D. D. Bragg, poultry specialist at VPI, warns that when turkeys on the range are attacked by large numbers of chiggers, the result can be loss of weight and a serious down-grading of carcasses. The affected birds show scarred areas or have red bumps on the breast, thighs, or legs.

If chiggers have become troublesome on the turkey range, remove the birds and spray the range areas with 1½ to 2 pounds of malathion per acre. The amount of concentrate you should use depends on the strength or per cent of actual insecticide in the product you buy. A spray mixture of 3 to 3½ pounds of 57% emulsified malathion in 40 to 50 gallons of water per acre of range should be satisfactory. Toxaphene or chlordane applied at the rate of 2 pounds per acre (2 quarts of 50% emulsified concentrate in 40 to 50 gallons of water) also is reported to be effective.

The spray treatments will usually prevent reinfestation for four weeks or longer. Birds should not be moved into the area for 10 days to 2 weeks after treatment, and care should be taken not to get any of the spray material on feeders or waterers or too close to stream banks or ponds.

Bragg also says that laying hens should be kept free of lice and mites. A 1% malathion spray or a spray of 4% DDT and 1/4% lindane applied to the roosts, nests, and inside wall surface of the poultry house will generally give good control of both lice and mites. A 4% malathion dust applied at the rate of 1 pound to 50 square feet of floor space, or 1% lindane or malathion paint applied to the roosts at the rate of about 1 pint for each 150 to 200 feet of roost will also do the job.

FHA Plans Program For Year

The officers of the F. H. A. met Tuesday, Aug. 26, in the home economic department of A. H. S. The purpose of this meeting was to set up goals for the coming year.

Attending the meeting were the following officers, with the president, Ann Beamer, presiding: vice-president, Lisella Martin; secretary, Patricia Thomas; treasurer, Catherine Routon; reporter, Kitty Vaughan Wood; historian, Catherine Richardson.

The plans made for the coming year are as follows:

Goal I: To strive for social and emotional security in the home and community.

Families Together

1. Visit older citizens in the community and remember them on special occasions, acquainting them with F. H. A.

2. Present programs for student body and public to acquaint them with F. H. A. activities and purposes, such as a safety program and a fashion show.

3. Have Father-Daughter get-together in form of "Daddy Date Night." Have Mother-Daughter banquet, inviting and recognizing persons who have promoted homemaking and F. H. A. in the community.

Teen-age Consumer

1. Encourage members to earn money for personal expenditures through a chapter baby-sitting bureau.

2. Encourage members to plan and spend money wisely by thinking and inventory of needs.

3. Show filmstrips on money management and teen-age consumer.

4. Invite a representative of a local store to discuss fabrics and wise buying.

Goal II: To understand the values of home-making and the opportunities it offers.

1. Have someone in the home economics profession to talk to chapter on career in home economics.

2. Inform other girls not in F. H. A. about home economics through assembly programs and advertising.

Goal III: To understand and help our neighbors at home and abroad.

1. Purchase UNESCO stamps.

2. Have programs on family life and customs in other lands.

Goal IV: To encourage individual participation in home, school, and community activities.

1. Carry out a chapter project to improve school grounds.

2. Sponsor a clean-up day at school.

Civil Defense and Home Safety

1. Set up an exhibit of a 7-day food supply for a family in a display window.

2. Provide a "Make Your Home Safe" check list for each member.

3. School assembly program on safety.

Developing Citizenship Through F. H. A.

1. Have different members serve as hostesses at chapter meetings.

2. Study the qualifications of officer candidates—vote for the member who will give the best leadership to the chapter.

3. Have delegates to state convention report to chapter.

4. A chapter program on "Grooming as a Future Homemaker" through degrees of achievement.

5. Hold a panel discussion of F. F. A.—F. H. A. members on "What our Camping Experiences Meant to Us."

STOP-DROP SPRAYS REDUCE FRUIT LOSSES

Stop-drop sprays, properly used, will save thousnds of buschels of high quality Virginia apples that would otherwise be lost.

Horticulturists at VPI say the stop drop sprays must be used at the recommended concentrations and at the right times. Used correctly, they are a valuable aid to the fruit grower. Used incorrectly, they may cost money.

The chemical, 2, 4, 4-TP is one of the best available stop-drop harmone sprays and is effective on all varieties. It should be applied no earlier than two weeks before the expected harvest date, and will help hold apples on the trees for about four weeks.

The chemical 2, 4, 5-TA is generally somewhat less effective than 2, 4, 5-TP in preventing pre-harvest drop, and is least effective on Jonathan and Winesap. The main advantage of this material is that it may not hasten fruit maturity as much as 2, 4, 5-TP.

Naphthalene acetic acid (NAA) is effective on all varieties, but its stop-drop effect lasts only a comparatively short time (7 to 10 days for most varieties).

A new leaflet, "Stop-Drop Sprays for Apples," gives further details on concentrations to use, and when to use the chemicals. Ask your county agent, or write the VPI Agriculture Extension Service, Blacksburg, for a free copy.

SAFETY PROGRAMS PAY OFF, KITE CLAIMS

Continued emphasis on farm and home safety is paying off, says G. D. Kite, agricultural engineer at VPI, and chairman of the VPI Agricultural Extension Service's committee on safety.

He says that information just released by the National Safety Council indicates that farm resident deaths in the home last year dropped by 200, and the number of farm home accidents dropped by 30,000 from 1956.

The peak periods of the day for farm accidents occur at about 10 A. M., 3 P. M., and 8 P. M. Kite says farm women are working mo[re] by the morning and should go to the field at their take a few minutes routine of fol[low] at the same time also the machine [is] being. From where I sit ... by Joe [illegible]

• She's Got Dad's "Number"

Dad Fowler and his Mrs. are about to celebrate their 50th wedding anniversary—so I asked them if there's any "secret" to this kind of wedded bliss.

"Oh we've had our arguments," said Dad, "but for fifty years I made it a point to count to fourteen before any argument could turn into a real quarrel. Fourteen — because that's exactly the amount of money I had the day we were married."

"From now on," smiled Mrs. Fowler, "you better count to fourteen. The two [illegible] marriage license [illegible]

Logic

A college professor of logic was attempting to teach his young son the principles of clear thinking and the necessity of defining all terms. He pointed to a wall clock which had just struck the hour.

"Now, if I were to take a hammer and smash that clock," he said, "could I be arrested for killing time?"

"No," said the lad without a moment's hesitation. "It would be self-defense."

The professor frowned, "How do you figure that out?"

"Because," answered the boy, "the clock struck first."
